protel WBE 4.0 | Next generation online direct sales

Hotels need two things to sell rooms directly, efficiently and effectively online:
A search engine-optimized website and a sophisticated booking solution – protel WBE 4.0.

protel WBE 4.0:
The sales engine

The screenshot shows the protel WBE 4.0 homepage. At the top left is the logo 'THE protel HOTEL GROUP'. To the right are links for 'English', 'Need Help? +49.231.915.930', and 'My account'. Below the logo is a search engine interface with fields for 'Arrival' (11/07/2012), 'Departure' (12/07/2012), 'Hotels' (All), and 'Location' (All). A red 'Search' button is at the bottom of the search form. To the right of the search form is a large image of a red abstract sculpture on a wooden deck overlooking the ocean. Below the search form are three promotional boxes: 'Rooms for tomorrow' (Looking for last-minute deals? Or just decided to travel now?), 'Rooms for the next weekend' (Look and plan for an amazing weekend), and 'Show me all' (See our full range of offers for today). Each box has a 'Show offers' button. At the bottom right, there is a 'Returning customer?' section with a 'Sign in' link and the text 'and get personalized recommendations'.

The protel WBE 4.0 homepage: Seamlessly integrated with the hotel website for hassle-free searches

▼ Estimating, marketing, executing: from your database right to the point of sale

Every booking solution aims to present your products on your most important sales shelf, your website, and to effectively market them without minimal involvement on your part. This works best if:

Warehouse and office: the hotel software manages prices, availabilities and reservations,

Sales shelf: the product presentation on your hotel website or other webpages where guests see what you have to offer, and

Cash register: the actual booking function and the point of sale

are as deeply integrated as possible. One solution fits the bill: protel's hotel management systems and the new protel WBE ...

Next generation online direct sales

▼ Your hotel has never been presented better

The cloud-based protel WBE 4.0 integrates smoothly with protel front office solutions. Our new booking engine opens up countless ways to present and sell offers on your hotel website more effectively than ever before.

Start out with the availability display on the WBE homepage ...
... or from any other point on the hotel website

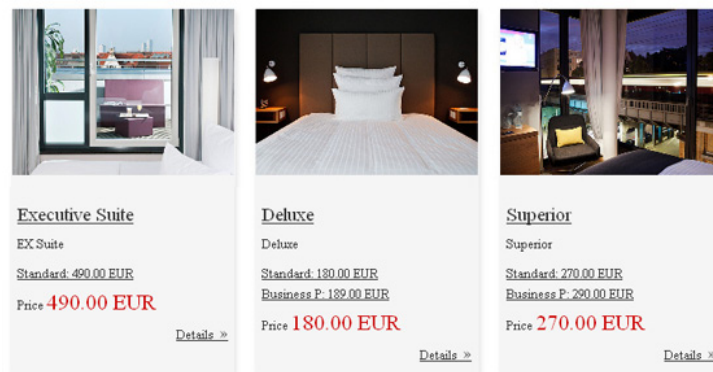

Clear and easy to understand:
The right sales pitch for every visitor

Webshop-style information flows:
Book rooms in only a few clicks

▼ Product information in the cloud

Not only does protel WBE 4.0 simplify data maintenance for online sales, it also makes the process more versatile and flexible: You can transform your front end into a media-rich product presentation by supplementing your master data with information, images and videos from a cloud-based product database.

▼ “What can we do for you?”

Don't let visitors leave without exhausting their options. There is often a way to meet their needs – even if their final booking doesn't quite match up with their initial inquiry. Sales-optimized product pages with customized rate/category combinations will keep visitors on your site, even if they don't immediately find what they are looking for.

User-friendly, shop-oriented pages with a wide range of product presentation options

Legend
■ Available ■ Not available ■ Minimum length of stay required

The availability screen shows the current daily rates.

▼ “I could also recommend...”

If there aren't any rooms available on the requested date, you might be able to interest visitors in alternatives. Offer them other options.

The WBE automatically presents alternative rates and arrival dates:

The system automatically shows alternative rates and arrival dates

Arrival on 15.07.2012 117,00 EUR /Night	Arrival on 16.07.2012 150,00 EUR /Night	Arrival on 17.07.2012 150,00 EUR /Night	Arrival on 18.07.2012 150,00 EUR /Night	Arrival on 19.07.2012 150,00 EUR /Night	Arrival on 20.07.2012 117,00 EUR /Night

“Come a day earlier and save big with our early bird special!”

You can sell everything in the WBE that you also sell at the hotel. Impress your guests with an online platform that covers everything, including the kitchen sink: details about rooms and amenities, arrangements, specials, prices, services, gift certificates, hotel background information ...

▼ “Could I interest you in any of our extras?”

A cloud-based product database can not only store images and videos, but also special booking and payment terms, for example. Extra services can be defined and added as needed.
